The Advantage Shoppers Enjoy From "Last Minute" Advertising in the Morning Newspapers.

"In the morning when the mind is at ease and free from care and trouble, when it is bright and clear and looking forward to the events of the day, then is the time that a morning newspaper gets a more thorough scanning than a newspaper later in the day. The morning newspaper is the newspaper that is thoroughly read, not only for the 'latest news' of the world, but also for the 'last minute' shopping news of the stores. Therefore advertisements in the morning newspapers are more thoroughly read and fresher on the mind of the reader than advertisements of the evening before. Advertisements in the morning newspapers offer their merchandise for sale the same day while advertisements in the evening newspapers offer them the next day. I consider it a pleasure and convenience to be able to buy merchandise the same day it is advertised, and I suppose the merchant is also glad to receive returns the same day he advertises, for through advertising in The Washington Herald he reaches the largest number of prospective purchasers at the least possible expense. The merchant's last and strongest appeal is directed through morning advertising, therefore many extraordinary money-saving opportunities are offered. Morning advertising brings early shoppers, crowds the store earlier and keeps business brisk throughout the day."

More and more advertisers are realizing that the public gives greater response to morning advertising.

The Herald's constantly increasing volume of advertising attests its value as an advertising medium.

the case of the Federal governmen against the United States Steel Corpora-tion under the Sherman anti-trust law, which several miths ago was decided by the court in favor of the corpora-

pected to carry considerable significance in regard to the court's attitude in the Steel Corporation case. The Department of Justice contended that the views al-vanced by the District Court in the Steel Corporation case were directly at variance with the views expressed by an-other District Court in the Harvester Trust case. It will, therefore, remain for the United States Supreme Court to decide which of these interpretations of

the Sherman law is sound. The Government in the papers filed at Trenton contends that the District Court erred on the following grounds:
"In falling and refusing to hold that the American Tinplate Company of New Jersey, the American Steel and Wire Company, the National Tube Company, and certain other subsidiaries of the Steel Corporation were formed not in the course of normal business developmen

but as a device for suppressing competi-tion in various steel products among the competitive plants and businesses ac-quired by them.

"In falling and refusing to hold that "In falling and refusing to noid that, they had been used for that purpose' ever since their formation and that the necessary effect of the continued con-trol of said competitive plants and busi-nesses by said companies is a violation of the anti-trust act."

of her case by Austria-Hungary.

It is not yet known whether the note will be made public, and it is very doubtful if it will be answered. The United States government views the issue as disposed of by the note already sent to Vienna, which was published, and does not regard it as open to further discussion. This issue was also dealt with in the so-called Bryan letter to Senator Stone, discussing United States neutrality, and also in a note addressed to the ity, and also in a note addressed to the German Ambassador hast spring, reply-ing to his protest against the munitions trade.

ABOLISH D. C. BRANCH OF ARMY AND NAVY UNION

Members Deem Work Unnecessary Since National Officials Are Here. First Meeting in Two Years.

The District of Columbia department of the Army and Navy Union was abolished last night at a meeting of the five parrisons that make up the local branch in G. A. R. Hall. The action was taken, it was stated, because the maintenance of a department in the city was deemed an unnecessary expense so long as the national officers of the Union have their headquarters here.
Commander W. L. Hull, of Presidents
Cwn Garrison, No. 101, who introduced
the resolution to abolish the department,
explained that the members of the local carrisons had to pay an annual tax to the national officers for the maintenance

of the department.

The abolition will not alter the work of the local garrisons, except that they will conduct their affairs independently. will conduct their affinites independently. The meeting was said to be the first the department has held for two years. The vote on the resolution to disband was three to two. The five garrisons that voted were President's Own, No. 104: D. D. Porter, No. 6; Gen. Arthur McArthur; William F. Barry, No. 28, and Guy V. Henry, No. 3.
